* BSW training is Saturday only

Here's what Wendy Patterson says about the License Prep Course:

"I took Dr. Dziegielewski's social work licensing exam preparation course and found it extremely beneficial. Not only did Dr. D help me narrow down the material I needed to review for the exam, but she taught me how to take the exam. In the end, the course actually reduced my preparation time and I passed the first time. I would highly recommend this course for anyone preparing to take the exam, whether they are a 'nervous' tester or they want a good review."
